

# THANKSGIVING DINNER SETTING PLAN

## Logic Work Grid

Five family members are seated around a table for Thanksgiving dinner: Alice, Bob, Carol, Dave, and Emma. Each of them is enjoying a different dish: turkey, stuffing, mashed potatoes, cranberry sauce, and pumpkin pie. Can you figure out who is sitting where and what dish they have based on the following clues?

1. Bob is sitting to the immediate left of the person who is eating stuffing.
2. The person who is eating mashed potatoes is directly across from Alice.
3. Carol is neither sitting next to nor directly across from the person eating cranberry sauce.
4. The person enjoying pumpkin pie is seated two places to the right of Emma.
5. Dave is sitting to the immediate right of the person who is eating turkey.

	Alice	Bob	Carol	Dave	Emma
Cranberry Sauce					
Turkey					
Mashed Potatoes					
Pumpkin Pie					
Stuffing
