

Easter's Joyful Light

The morning sun shines warm and bright,
Filling hearts with love and light.
The earth awakes, the flowers bloom,
Sweeping away the winter's gloom.

The stone is rolled, the news is clear,
A song of joy for all to hear!
Hope has risen, life is new,
A promise strong, a sky so blue.

So laugh, rejoice, and sing today,
Let Easter's light lead the way!
With love and grace so full and true,
A brighter world begins with you!
